## Education

---

### GIFT University, Gujranwala

Dec 2021 – Sep 2025

*BS in Software Engineering*

- CGPA: 3.11/4.00

### Gift College, Gujranwala

2019 – 2021

*Intermediate in Pre-Engineering, BISE Gujranwala*

- Marks: 853 / 1100 (Grade: A)

## Experience

---

### Graphic Designer & UI/UX Designer

*Technologia Software House*

*Continue*

- Designed modern and user-friendly mobile and web application interfaces using Figma.
- Designed marketing materials including social media posts, banners, flyers, brochures, and branding assets.
- Collaborated with developers to ensure accurate implementation of UI designs.
- Improved user experience by conducting design research and applying usability principles.
- Worked with Photoshop, Illustrator, and Figma to deliver high-quality visual designs.

## Projects

---

### Brand Identity Marketing Design

*Adobe Photoshop, Adobe Illustrator*

- Designed professional logos, business cards, flyers, banners, and brochures for various businesses.
- Developed cohesive brand identities by applying typography, color theory, layout design, and visual hierarchy.
- Created print-ready and digital marketing materials with a focus on modern, impactful, and brand-consistent designs.

### Stylo Fashion Mobile App (UX/UI Design)

*Figma*

- Designed a modern fashion shopping mobile application with a clean and user-friendly interface.

- Created wireframes, high-fidelity UI screens, interactive prototypes, and a reusable design system.
- Designed product browsing, wishlist, cart, checkout, and user profile screens for a seamless shopping experience.

### **Grocery Shop Mobile App (UX/UI Design)**

*Figma*

- Designed an intuitive grocery shopping application with responsive layouts and easy product navigation.
- Created screens for home, categories, product details, shopping cart, checkout, and order tracking.
- Focused on improving usability, accessibility, and efficient shopping workflows.

### **Flower Shop Mobile App (UX/UI Design)**

*Figma*

- Designed a visually appealing flower delivery application with an elegant and minimal interface.
- Created user flows for browsing bouquets, product details, cart, secure checkout, and order confirmation.
- Used modern typography, soft color palettes, and engaging visual elements to enhance user experience.

### **Food Delivery Mobile App (UX/UI Design)**

*Figma*

- Designed a food ordering application with an intuitive ordering process and modern interface.
- Created interactive prototypes for restaurant listings, menu screens, cart, payment, order tracking, and profile management.
- Applied user-centered design principles to improve navigation and overall user satisfaction.

### **Salon Booking Mobile App (UX/UI Design)**

*Figma*

- Designed a complete salon booking application with appointment scheduling and service management features.
- Created screens for onboarding, home, service details, booking, payment, notifications, and user profile.
- Developed a consistent design system with reusable components and responsive layouts following modern UI/UX trends.
